
Accounting with Computer Applications

Objective: This program is designed to prepare the graduate for an entry-level account clerk or bookkeeping position or as a full-charge bookkeeper. Accounting systems, cycles, theories, and concepts are studied with a strong emphasis on computerized spreadsheets, word processing, and computerized accounting to meet the demands of the employer. Emphasis on marketable skills is consistent with the mission of the College.

The student is prepared for the NBA (National Bookkeepers Association) certifications in bookkeeping and payroll, as well as the IRS VITA (Volunteer Income Tax Assistance) certification in income tax preparation.

Note: All units in this program are transferable to the Specialized Associate Degree – Accounting program.

Expected Educational Outcomes: Upon completing the Accounting with Computer Applications program, students will have demonstrated:

1. The ability to maintain a set of accounting records for a business and complete the financial reporting requirements.
2. The critical thinking skills required to analyze business transactions and make the necessary judgment to ensure accounting records are maintained in accordance with Generally Accepted Accounting Principles (GAAP).
3. The ability to assist or prepare budgets and provide management advisory services on assessing costs and how they can be controlled.
4. The understanding of the Income Tax rules and regulations as they pertain to individuals and businesses and the ability to assist in preparing tax returns and assisting in the tax planning as it relates to planning future transactions.

Diploma awarded upon successful completion of all graduation requirements.
