

Curriculum – Master of Legal Studies

Objective: The objective of the Master of Legal Studies program is to enable students to pursue diverse career choices through the acquisition of a foundational understanding of the legal system. In addition, it is the objective of the law school to enhance the professional skills and knowledge for those graduates who do not choose to sit for the California Bar Examination. Empire College School of Law is committed to providing legal skills to professionals in the fields of medicine, banking, retail sales, insurance, engineering, and manufacturing – even if those graduates do not envision the active practice of law per se.

This program is designed to inform and educate professionals about the fundamentals of the law and help them gain an educated appreciation for the intricacies surrounding the intersection of law, public policy, and the professions. Master’s candidates shall take some of the core classes in the law school curriculum in order to increase their understanding of the basic building blocks of the legal profession. Professionals from diverse fields, including banking, finance, insurance, education, law enforcement, human relations, and sales and marketing all deal with the law as it is applied to their activities. With increased sophistication regarding legal principles, Master’s candidates shall be able to increase their awareness of and preparation for legal issues which may arise in their daily lives.

Expected Educational Outcomes: Upon completing the Master’s degree, program participants shall:

1. Be able to identify the elements of both common law and statutory definitions of torts, crimes, and contracts.
2. Have an expanded knowledge of the elements of constitutional legal issues and how those may be addressed in both their personal and professional lives.
3. Gain specialized legal knowledge in the fields covered by their elective course offerings.
4. Have a broad understanding of the law coupled with an in-depth understanding of one or more unique areas of specialization.
